

JFB 24 S with JUWathan®

Load capacity: 2 x 12 t

Height: 125 mm

Art.-Nr. 06 242 090-V

Advantages of transport trolleys

- Pivoting cassettes and axles within the frame (except for JLB 16 S) assure even pressure distribution across all castors and across the floor.
- Slim castor design (60 mm fitting length) results in easier steering due to reduced friction forces also in curves.
- Very low height at only 125 mm, with high capacity and less own weight.
- All transport trolleys are ready for use: The adjustable-width transport trolley consists of two transport units and connecting bars.
