

JKB 10 G Set with JUWathan

Load capacity: 2 x 10 t

Height: 180 mm

Art.-Nr. 14 101 140-DVu

Advantages of revolving transport trolleys

- High load capacity at low weight.
- Bearing supported swiveling castors allow 360° maneuverability.
- JKB 10 has same height as transport trolleys series G
- All products are also available in a set of two with price advantage.
- Unrivalled: The narrow castors reduce rolling and turning resistance to a minimum.
- In addition, all the rotational trolleys have a platform center hole to allow attachment to the load.
- For choosing the adequate revolving trolley we recommend a load of two-third of the maximum capacity. This will be the most advantageous compromise between payload, ergonomics and handling of the devices.
- Pulling handle and connecting bars available as accessories.
- Inspected according to technical regulation ANSI ? ASME (USA)
