

JL 10 K

Load capacity: 10 t

Height: 110 mm

Art.-Nr. 07 100 085-D

Advantages of transport trolleys

- Galvanized axles and safety clip rings for improved protection against corrosion.
- The double roller design results in dramatically easier steering due to reduced friction forces in castors. The much lower friction resistance also causes the trolleys on the rear axis to follow in a truer course.
- You need 30 % less power for steering.
- Higher capacity with professional castors, at same dimension as series K trolleys.
- All transport trolleys are ready for use: the steerable transport trolley is fitted with a ball bearing supported turntable and a handlebar.
- The series K handlebars are now also available with a removable handle, which is also available as a re-fitting set.
- Non-marking support wheels.
- Inspected according to technical regulation ANSI ? ASME (USA)

Technical data

Title	Unit	Data
Load capacity	kg	10000
Number of castors	pcs.	12
Castor dimensions Ø x Fitting length	mm	85 x 85
Height	mm	110
Supporting surface of turnable Ø	mm	170
Steerable Dimensions	mm	580 x 820
Handlebar with pulling eye	mm	1120
Weight professional	kg	56
