

JL 80 H Professional

Load capacity: 80 t

Height: 240 mm

Art.-Nr. 09 800 206-H

- Unrivalled: Small and lightweight trolleys at super high capacity.
- Steerable transport trolleys with pivoting cassettes for a better load distribution at all castors and the floor.
- All transport trolleys are ready for use: the steerable transport trolley is fitted with a ball bearing supported turntable and a handlebar. The adjustable-width transport trolley consists of two transport units and connecting bar.
- Also available as Professional version with JUWathan twin castors: the double castor design results in dramatically easier steering due to reduced friction forces in curves. The much lower friction resistance also causes the castors on the rear axis to follow in a truer course.
