

Revolving transport trolley JKB 10 G with locking mechanism

Agile and powerful revolving transport trolley from JUNG. The JKB 10 G transport trolley transports loads up to 10 t with an installation height of 180 mm and locking mechanism.

Product number 14 104 140-Vu

Weight 127kg

Product description

Advantages of the revolving transport trolleys JKB 10 G with JUWATHAN castors

- High load capacity at low weight.
- With locking mechanism: for fixing the castors in place so that the track is maintained even on uneven floors or when changing direction. The directional lock can be secured or released under load. Can be used for electrically powered chassis as a trailer or steering wheel, as the castors run true to track.
- Bearing supported swiveling castors allow 360° maneuverability.
- JKB 10 has same height as transport trolleys series G
- All products are also available in a set of two with price advantage.
- Unrivalled: The narrow castors reduce rolling and turning resistance to a minimum.
- In addition, all the trolleys have a platform center hole to allow attachment to the load.
- For choosing the adequate revolving trolley we recommend a load of two-third of the maximum capacity. This will be the most advantageous compromise between payload, ergonomics and handling of the devices.
- Pulling handle and connecting bars available as accessories.
- Inspected according to technical regulation ANSI ? ASME (USA)

Product properties

Weight JUWATHAN® (kg)	127
Supporting surface per cassette (mm)	250
Number of castors (Pieces)	8
Cassette dimensions (mm)	975 x 665
Consist of	1 x JKB 10 G
Castor dimensions (Ø x l mm)	140 x 59
Height (mm)	180
Load capacity (t)	10
