Connecting bar for revoling and multi-purpose trolleys

The connecting bar ensures safe synchronisation and a stable connection.

Product number 92 030 085-V
Weight 3kg

Product description

Connecting bar for JKB 2 + JLF 3,5 - 5

size: Ø 20 mm / length 1 200 mm
The connecting bar is used to couple and securely connect revoling and multi-purpose trolleys during transport operations. It is manufactured to fit precisely and guarantees stable and precise guidance of the connected trolleys. This facilitates the smooth movement of heavy loads and significantly improves control during transport. The connecting bar is suitable for the JKB 2 and JLF 3.5 – 5 models and can be installed quickly and easily.
Connecting bar – robust, precise and reliable for professional use with JUNG trolleys.
