Container-Traverse with drawbar

The Container-Traverse with drawbar is designed for various types of transport trolleys.

Product number 92 000 226-T2
Weight 117kg

Product description

The container-traverse with twistlock attachment is applicable for various types of transport chassis:

- Safe transport of ISO-containers and special containers up to 36 metric tons (Two traverses with a load capacity of 18 tons each are required per container).
- Containers can be moved with extremely low installation height.
- Assembled in two parts for easy handling and storage.
- Compatible with all ISO containers.
- Lockable twistlock version to ISO dimension 2.26 m (not adjustable).
- Optionally a trapezium drawbar can be adapted.
- The dimension of the traverse is within the container contour.
- The load is firmly connected to the chassis and can be completely loaded.
- Installation height of the crossbar: 80 mm.
