

Steerable trolley JL 10 K Professional

High-performance transport trolley from JUNG. The JL 10 K professional steerable trolley transports loads up to 10 t with an installation height of 110 mm.

Product number 07 100 085-D

Weight 56kg

Product description

Advantages of the transport trolley JL 10 K Professional

- Galvanized axles and safety clip rings for improved protection against corrosion.
- The double roller design results in dramatically easier steering due to reduced friction forces in castors. The much lower friction resistance also causes the trolleys on the rear axis to follow in a truer course.
- You need 30 % less power for steering.
- Higher capacity with professional castors, at same dimension as series K trolleys.
- All transport trolleys are ready for use: the steerable transport trolley is fitted with a ball bearing supported turntable and a handlebar.
- The series K handlebars are now also available with a removable handle, which is also available as a re-fitting set.
- Non-marking support wheels.
- Inspected according to technical regulation ANSI ? ASME (USA)

Product properties

Number of twin castors (pcs.)	12
Dimensions steerable (mm)	580 x 820
Handlebar with pulling eye (mm)	1 210
Castor dimensions (Ø x l mm)	85 x 85
Height (mm)	110
Weight Professional (kg)	56
Load capacity (suitable)	16 - 20 t
Supporting surface of turnable Ø (mm)	170
Load capacity (t)	10
