

Adjustable trolley JFB 80 H Professional

Power and stability - the JLB 80 H transport trolley from JUNG can lift loads of up to 80 t with an installation height of 240 mm.

Product number 10 800 206-H

Weight 565kg

Product description

Advantages of the transport trolley JFB 80 H

- Unrivalled: Small and lightweight trolleys at super high capacity.
- Steerable transport trolleys with pivoting cassettes for a better load distribution at all castors and the floor.
- All transport trolleys are ready for use: the steerable transport trolley is fitted with a ball bearing supported turntable and a handlebar. The adjustable-width transport trolley consists of two transport units and connecting bar.
- Also available as Professional version with JUWathan twin castors: the double castor design results in dramatically easier steering due to reduced friction forces in curves. The much lower friction resistance also causes the castors on the rear axis to follow in a truer course.

Product properties

Number of twin castors (pcs.)	2 x 16
Cassette dimensions (mm)	750 x 830
Cassettes adjustable from - to (mm)	830 x 2 800
Weight JUWathan® (kg)	538
Load capacity (suitable)	61 - 200 t
Supporting surface per cassette (mm)	400 x 260
Height (mm)	240
Castor dimensions (Ø x l mm)	200 x 85
Number of castors (Pieces)	2 x 16
Connecting bar with joint (mm)	2 x 3 000
Load capacity (t)	80
