

Revolving transport trolley JKB 10 G Set

Agile and powerful revolving transport trolley from JUNG. The JKB 10 G transport trolley set transports loads up to 20 t with an installation height of 180 mm.

Product number 14 103 140-DVu

Weight 280kg

Product description

Advantages of the revolving transport trolley set JKB 10 G with JUWathan castors

- High load capacity at low weight.
- Bearing supported swiveling castors allow 360° maneuverability.
- JKB 10 has same height as transport trolleys series G
- All products are also available in a set of two with price advantage.
- Unrivalled: The narrow castors reduce rolling and turning resistance to a minimum.
- In addition, all the rotational trolleys have a platform center hole to allow attachment to the load.
- For choosing the adequate revolving trolley we recommend a load of two-third of the maximum capacity. This will be the most advantageous compromise between payload, ergonomics and handling of the devices.
- Pulling handle and connecting bars available as accessories.
- Inspected according to technical regulation ANSI ? ASME (USA)

It is recommended to select a payload of approximately 2/3 of the maximum load capacity to achieve the best compromise between payload, ergonomics, and handling of the equipment.

Product properties

Weight JUWathan® (kg)	280
Supporting surface per cassette (mm)	250
Cassette dimensions (mm)	975 x 665
Consist of	2 x JKB 10 G
Castor dimensions (Ø x l mm)	140 x 59
Number of castors (Pieces)	2 x 8
Height (mm)	180
Load capacity (t)	20
