

Steerable trolley JL 80 H Professional

Power and stability - the JL 80 H transport trolley from JUNG can lift loads of up to 80 t with an installation height of 240 mm.

Product number 09 800 206-H

Weight 697kg

Product description

Advantages of the steering transport trolleys JL 80 H

- Unrivalled: Small and lightweight trolleys at super high capacity.
- Steerable transport trolleys with pivoting cassettes for a better load distribution at all castors and the floor.
- All transport trolleys are ready for use: the steerable transport trolley is fitted with a ball bearing supported turntable and a handlebar. The adjustable-width transport trolley consists of two transport units and connecting bar.
- Also available as Professional version with JUWATHAN twin castors: the double castor design results in dramatically easier steering due to reduced friction forces in curves. The much lower friction resistance also causes the castors on the rear axis to follow in a truer course.

Product properties

Handlebar with pulling eye (mm)	1 600
Dimensions steerable (mm)	820 x 1 970
Weight JUWATHAN® (kg)	697
Load capacity (suitable)	61 - 200 t
Supporting surface of turntable Ø (mm)	250
Number of twin castors (pcs.)	32
Height (mm)	240
Castor dimensions (Ø x l mm)	200 x 85
Load capacity (t)	80
